

Catholics resonate to a sense of community, to caring for others because we are all part of God's family, and to working for justice. These fundamental Catholic values drive Joe Biden's efforts to help the American family and heal the divisions in our country, and they underscore his priorities to act if elected President.

Joe Biden Will Fight Climate Change

The terrible images of the fire-ravaged West and the hurricane-impacted South speak to the need to address climate change forcefully. Joe Biden will provide the leadership necessary to take action with his plan for a Clean Energy Revolution that calls for:

- Rallying the rest of the world to meet the threat of climate change.
- Ensuring the U.S. achieves a 100% clean energy economy and net-zero emissions no later than 2050, with clear interim goals to get there.
- Investing in buildings, water, transportation, and energy infrastructure that can withstand the impacts of climate change.
- Standing up to polluters who abuse their power and disproportionately harm communities of color and low-income communities.
- Fulfilling our obligations to workers and communities who powered our industrial revolution and subsequent decades of economic growth.

Like Pope Francis, Joe Biden believes that protecting the planet also protects the poor who are most vulnerable to harm from climate change. Joe will prioritize policies to make a difference.
