

Catholics resonate to a sense of community, to caring for others because we are all part of God's family, and to working for justice. These fundamental Catholic values drive Joe Biden's efforts to help the American family and heal the divisions in our country, and they underscore his priorities to act if elected President.

Joe Biden Will Fight For Your Health Care

Catholics believe that everyone has a right to adequate health care regardless of ability to pay. Joe Biden supports this principle, but the Trump Administration is challenging the Affordable Care Act (ACA) in the Supreme Court. Poor people and those with pre-existing conditions are at risk to lose their health care now that Judge Ruth Bader Ginsberg has died. Joe Biden wants to protect and expand the ACA. His health plan will:

- Lower the age of Medicare to 60 to protect older workers who lose jobs.
- Offer a government-run option similar to Medicare for people who don't like their employer-provided insurance or who live in states that haven't yet expanded their Medicaid program.
- Strengthen the ACA and lower costs by increasing subsidies to users.
- Negotiate with drug companies for lower drug costs.
- Stop surprise billing for out-of-network medical bills.

The Obama-Biden Administration passed the ACA which expanded coverage for over 20 million Americans and provided 100 million people with protection for pre-existing conditions. Joe Biden will protect the ACA and increase payroll tax funding to protect the future of Medicare.
