

*Catholics resonate to a sense of community, to caring for others because we are all part of God's family, and to working for justice. These fundamental Catholic values drive Joe Biden's efforts to help the American family and heal the divisions in our country, and they underscore his priorities to act if elected President.*

## **Joe Biden Will Fight For American Jobs**

Catholic support for labor unions and opposition to unfettered market power has been consistent for 130 years. Now Pope Francis has emphasized Catholic support for economic justice in his recent "Fratelli Tutti." Joe Biden is rooted in this proud tradition. As vice president, Joe Biden helped save the American auto industry. If elected, Joe Biden will be for Main Street, not Wall Street. He supports:

- Requiring the federal government to buy American products with the \$600 million it spends every year.
- Equal pay for women, a part of building our economy back better.
- Increasing the minimum wage gradually so a living wage is a reality.
- Preparing workers for new jobs to make the U.S. competitive in trade.
- Creating 10 million new jobs to battle climate change.

Joe Biden believes in "moral capitalism" and opposes requiring workers to sign agreements not to discuss their pay. Joe Biden will create jobs, and good jobs, for working families in America.

### **Vote for Joe Biden: The Catholic Social Justice Candidate**
